

## ERRATUM

Jun-Ichi Nishimura, Norimitsu Inoue, Yasuhiko Azenishi, Teruaki Akaogi, Masaru Shibano, Kazuyoshi Kawagoe, Etsuko Ueda, Takashi Machii, Junji Takeda, Taroh Kinoshita, and Teruo Kitani: Analysis of *PIG-A* gene in a patient who developed a reciprocal translocation of chromosome 12 and paroxysmal nocturnal hemoglobinuria during follow-up of aplastic anemia. Am J Hematol 51:229–233, 1996.

Due to misinterpretation of sequence data, the mutation in the *PIG-A* gene described in the text and Figure 4 was incorrect. The reported mutation, a deletion of a guanine at the end of exon 2 should be changed to a base substitution from guanine to adenine with an amino acid change from Gly to Arg.

The authors regret the error.
